 - Discussed 2 day training and highlights and lowlights. Teachbacks as a part of training was well-received by participants and better prepares providers to teach curriculum than previous training (Reducing the Risk).
 - Also talked about the ‘sex-positive’ nature of MPC including one of the modules demonstrating a partner who offers to help apply a condom in order to prevent pregnancy and STIs.
 - Reinforced the value of group agreements and parking lot issues that we want to discuss with youth.
- District 2 Evaluation Report
 - Maurice walked through a few highlights of Ohio PREP 2019 Evaluation Report
- Technical assistance needs
 - Offered any additional T/A to partners
 - CCBH also asked two Lake County partners to inquire about hosting options in the future. For travel purposes, Lake County would be ideal location for PREP providers in Geauga and Ashtabula counties. Both Lake County JFS and Torchlight will report back to CCBH about possibilities.
