Date: April 14, 2023

For Immediate Release

Air Quality Advisory Issued

James M. Adams, Canton City Health Commissioner, has issued a Health Advisory for Stark County due to expected elevated concentrations of ground-level ozone as the temperature rises today. People with lung disease (such as asthma), children, older adults, people who are active outdoors (including outdoor workers), and people with certain genetic variants should reduce prolonged or heavy outdoor exertion.

To get the latest AQI readings based on the most current pollutant levels, visit www.airnow.gov .

You can help reduce levels of ground-level ozone by driving less and refueling your vehicle after sunset.

Questions concerning this health advisory may be directed to Canton City Public Health, Air Pollution Control at (330) 438-4665.
