Canton City Public Health Announces New Leadership Hires

Canton City Public Health is pleased to announce the hiring of Annmarie Butusov, RS, as the new Director of Environmental Health. Annmarie has been with Canton City Public Health since 2012. Starting as a Staff Sanitarian, she has had experience with various environmental health programs. In 2015 she began working with Stark County THRIVE as the Epidemiologist. She has developed extensive skills in that position in the areas of data analysis, community organizing, coalition building, and infant mortality reduction. Ms. Butusov will be starting her new duties as the Director of Environmental Health on August 27, 2018.

We are also pleased to announce the hiring of Aaron Butchelli as the Recycling Center Manager. This is a new position for Canton City Public Health. Aaron has been working for the department as a part time staff member at the Recycle Center for the past two years. Prior to joining Canton City Public Health, he ran his own E-waste recycling business. His wealth of knowledge will be instrumental in managing the Recycle Center and moving it forward. Mr. Butchelli will begin his new position effective immediately.
