

**A joint collaboration between Stark County Public Health Agencies:**

Alliance City Health Department

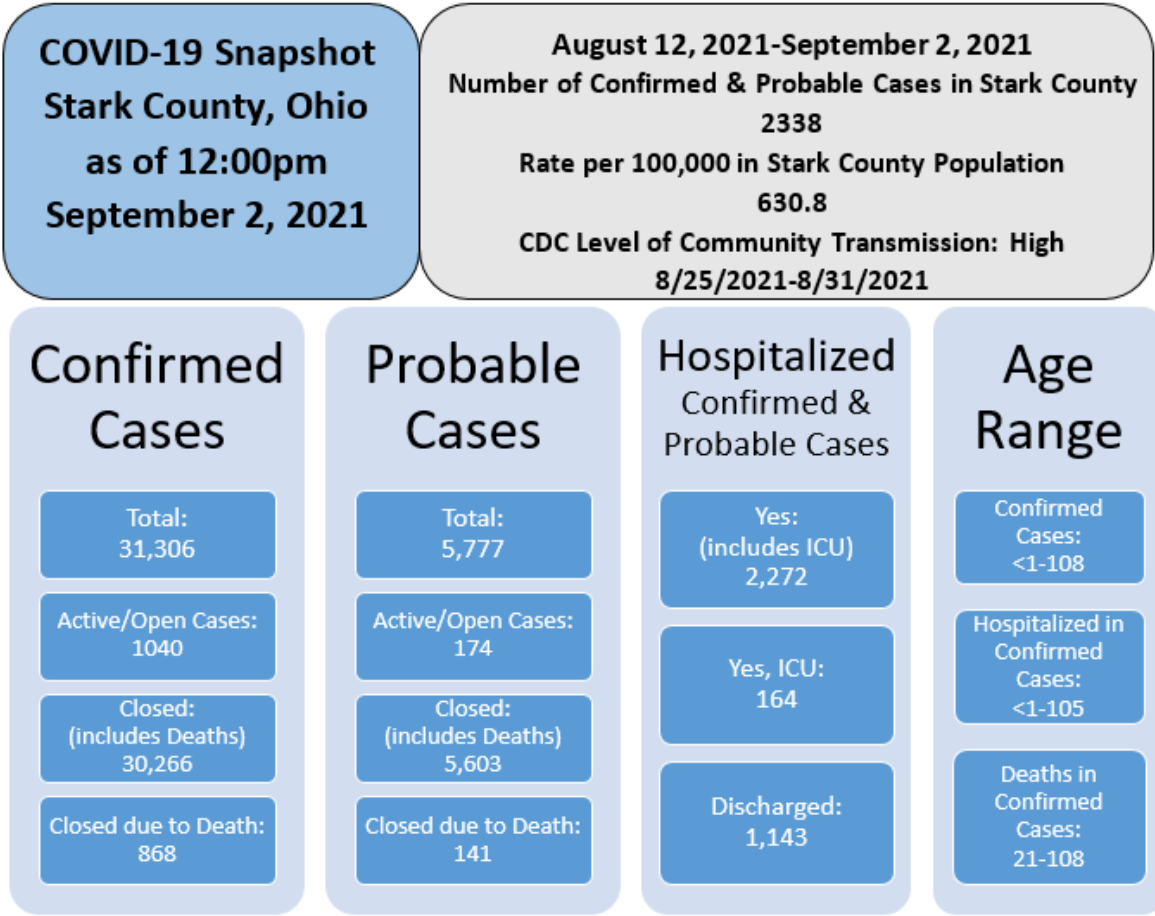

Canton City Public Health

Massillon City Health Department

Stark County Health Department

Stark County, Ohio

September 2, 2021 Epi Report

All data contained is preliminary and is subject to change as more information is reported to Ohio Department of Health (ODH). Data presented in this document is based on data as of 09/02/2021 12:00 pm (for Stark County data) and/or 2:00pm (for Ohio data). Cases from previous days are likely to change as more information is entered. Caution should be exercised as data is subject to change. Numbers may differ from ODH depending on time data was accessed.

**Stark County Epi Situational Report - COVID-19**

**Table 1 as of: 09/02/2021 12:00PM**

Next report scheduled: 09/09/2021

Cases Reported to Stark LHDs		
Data from 6/10/2021-9/2/2021 (12-weeks)		
Positive/Confirmed	3,142	
Hospitalized	191	6.08%
ICU Admissions	5	0.16%
Deaths in Confirmed Cases	15	0.48%
Probable Cases	583	
Deaths in Probable Cases	0	

Cases Reported to Stark LHDs		
Cumulative Data as of 09/02/2021 12:00		
Positive/Confirmed	31,306	
Hospitalized	2,203	7.04%
ICU Admissions	160	0.51%
Deaths in Confirmed Cases	868	2.77%
Probable Cases	5,777	
Deaths in Probable Cases	141	

**Descriptive Statistics for Stark County Confirmed Cases: Data from 6/10/2021-9/2/2021**

Gender			
	Confirmed Cases		Deaths
Male	1,485	47.3%	9
Female	1,656	52.7%	6
Unknown	1	0.0%	0
Total	3,142		15

Ethnicity			
	Hispanic	Non-Hisp	Unknown*
Count	46	2,126	970
%	1.5%	67.7%	30.9%

Race						
	White	Black	Asian/Pacific Islander	American Indian/Alaskan Native	Other	Unknown*
Count	2,010	285	15	3	88	741
%	64.0%	9.1%	0.5%	0.1%	2.8%	23.6%

\*Unknown counts includes refused to answer responses

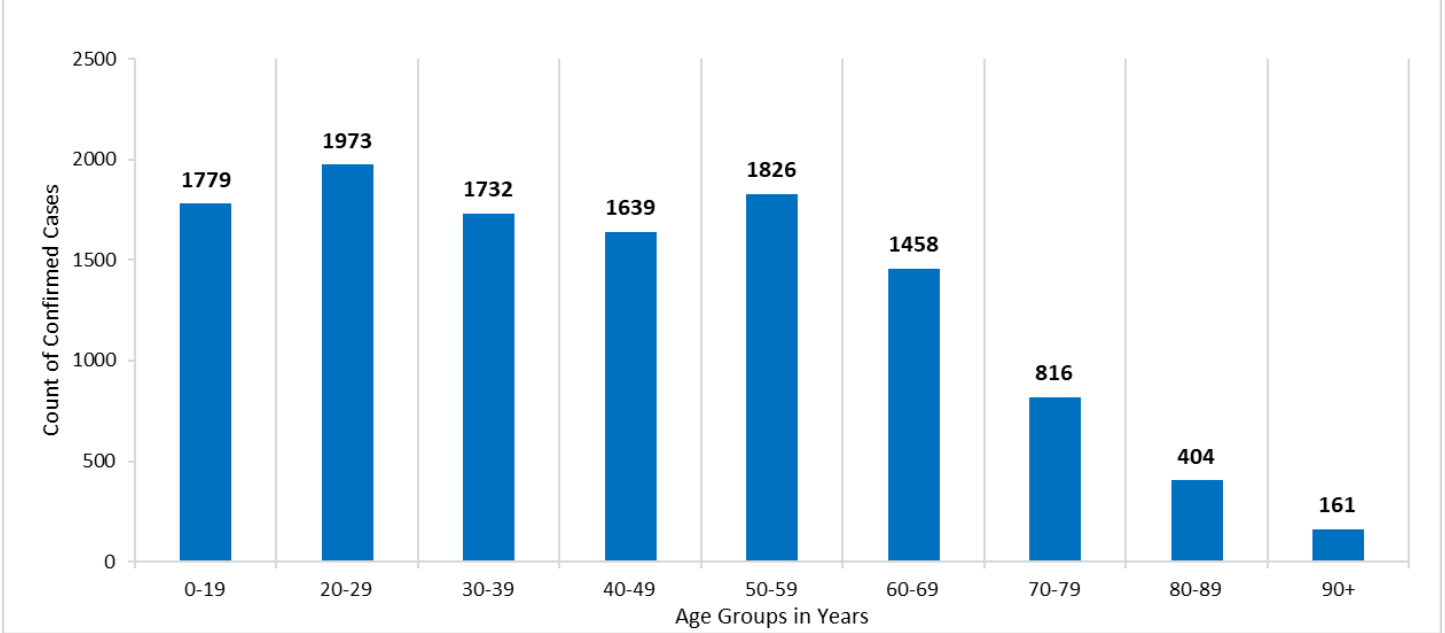

**Hospitalization Information for Stark County Confirmed Cases-Cumulative Counts**

Hospitalized			If hospitalized, in ICU?			Discharged from Hospital		
Yes	2,203	7.0%	Yes	160	7%	ICU	119	
No	27,007	86.3%	No	2,043	93%	Other	991	
Unknown	2,096	6.7%				Some cases may be discharged due to death.		

**Stark County Vaccination Update as of 9/02/2021**

Current Vaccination Groups Eligible	Vaccine Started	Vaccine Completed
Persons aged 12 and over	Count: 180,256	Count: 166,576
	48.64% of population	44.95% of population

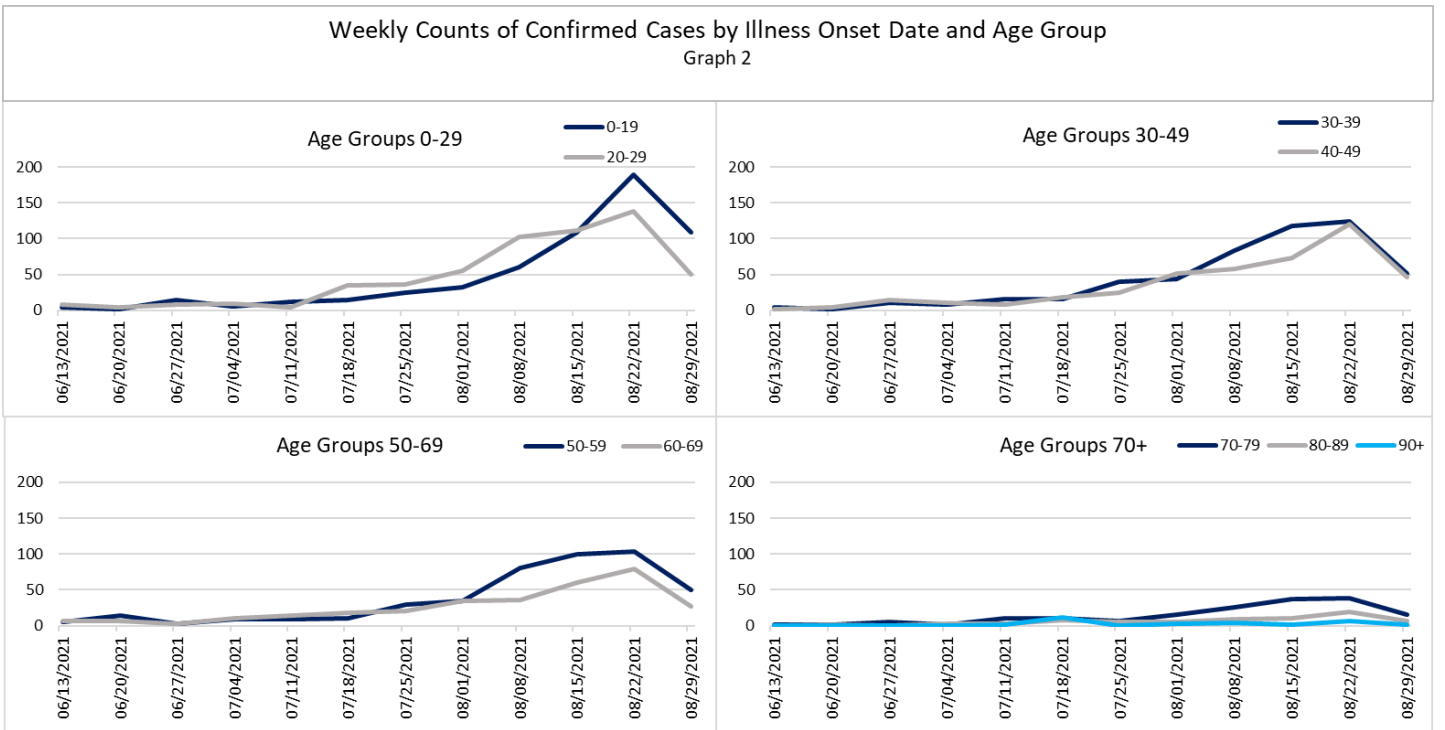

Count of Confirmed Cases by Age Group in Stark County-2021 only  
Graph 1

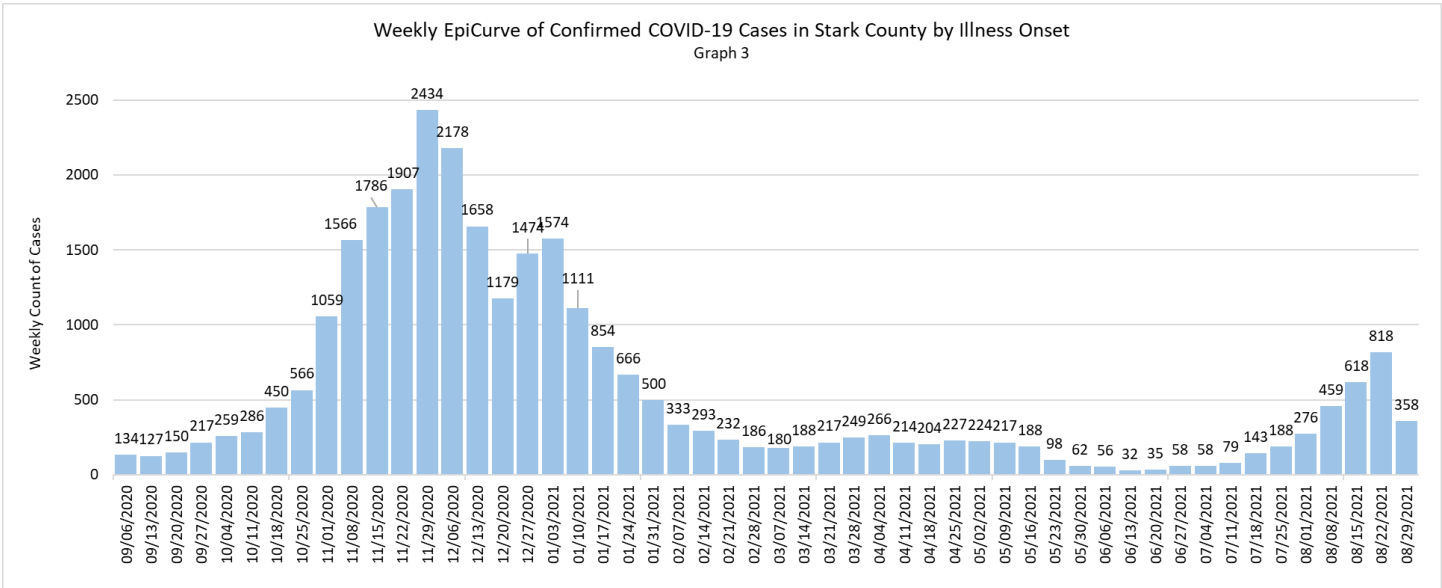

Graph 1 shows the cumulative number of laboratory-confirmed cases by age group for 2021 only. There is 1 confirmed case in which date of birth is currently unknown and not shown in graph above.

Graph 2 shows a breakdown of confirmed cases by week by age groups. As with all data contained in this report, caution is advised when looking at the past 2-3 weeks of data due to delays in testing results. Only 12 weeks of data is shown in graphs below.

Weekly Counts of Confirmed Cases by Illness Onset Date and Age Group  
Graph 2

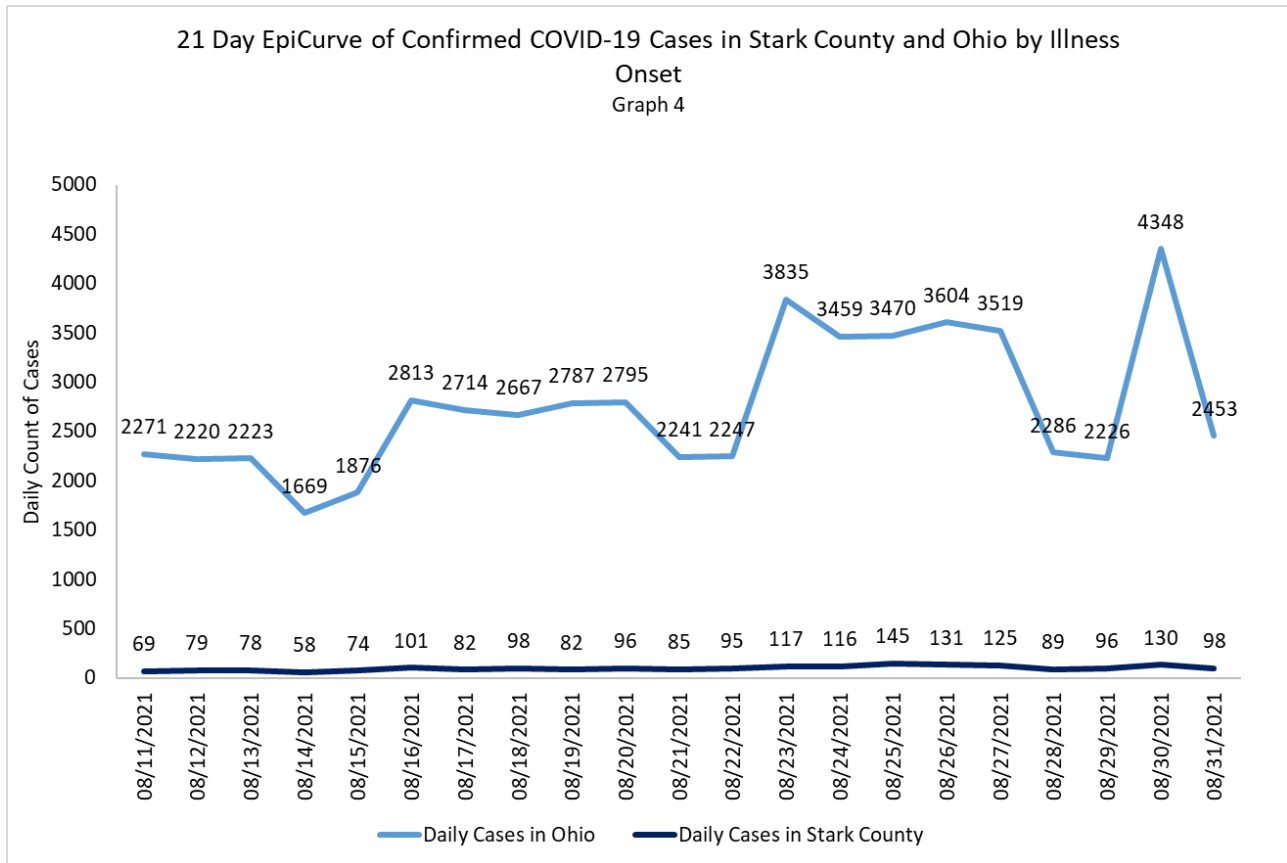

# EPIDEMIOLOGICAL REPORT ON COVID-19

Graph 3 shows the EpiCurve which displays the total number of laboratory-confirmed cases per week, based on the illness onset date for Stark County. If the illness onset date is not available, the earliest known date is utilized, which could be the date the specimen was collected, the date of the test results or the date reported to the local health department. Counts will change as additional information is collected. Stark County’s first confirmed case reported an illness onset date of 2/25/2020 but graph only contains 52 weeks of data.

To help highlight short-term daily changes, Graph 4 shows daily counts of laboratory confirmed cases for a 21-day period. Due to decreasing case counts, this graph was updated on 7/8/2021 to no longer utilize a logarithmic scale.

Count of Deaths in Confirmed Cases by Week  
Graph 5

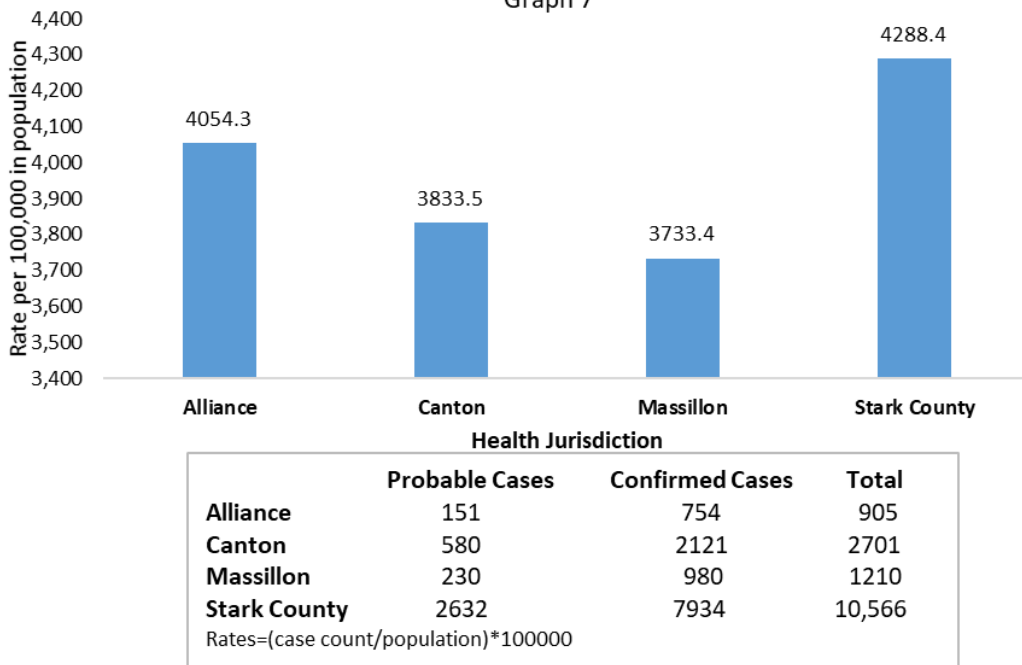

Graph 5 is a breakdown of death counts in laboratory-confirmed cases by week in which the death occurred. Includes only deaths reported to the local health department as of 12:30 pm on 8/26/2021. This isn't an automated process which is why it may be a week or longer for a death to be documented. **Please see last page of report for additional information regarding deaths.**

Graph 6 shows the breakdown in deaths in confirmed and probable cases by age group. Additional age groups will be added as needed.

Count of Deaths in Confirmed & Probable Cases by Age Group  
Graph 6

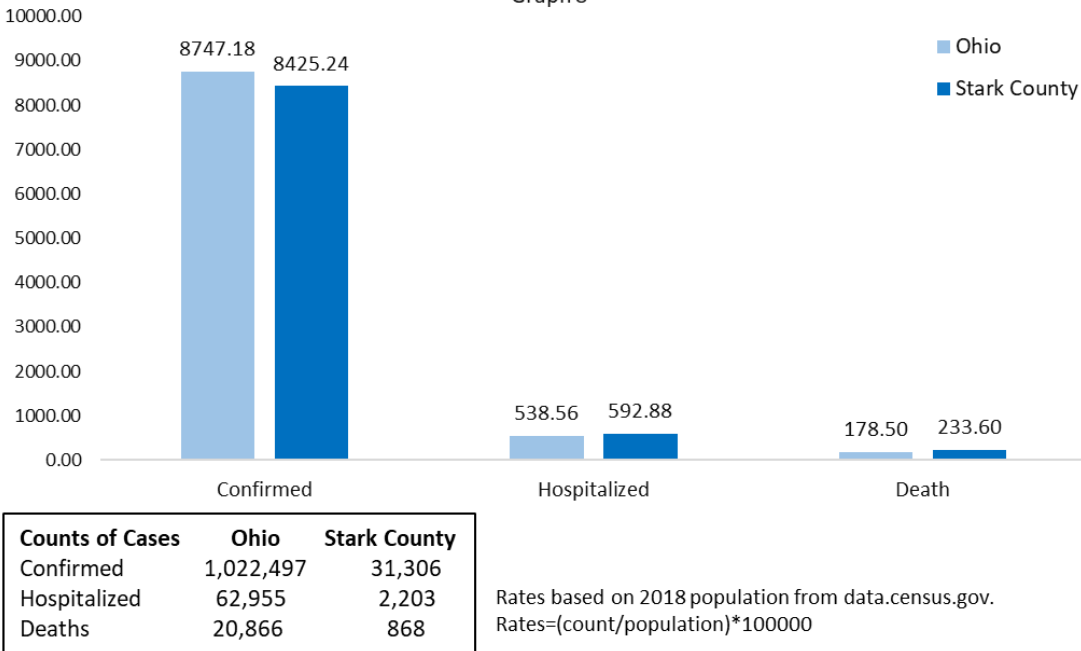

Rate of Confirmed and Probable Cases by Health Jurisdiction-2021 only  
Graph 7

**\*Graph updated since 6/2021. Only includes cases with illness onset in 2021.** Graph 7 shows the rate of cumulative confirmed and probable cases by Stark County jurisdictions. Alliance, Canton and Massillon jurisdictions covers those within those particular city limits. Stark County jurisdiction covers all other areas outside of those three city limits. Rates calculated by 2018 population census data.

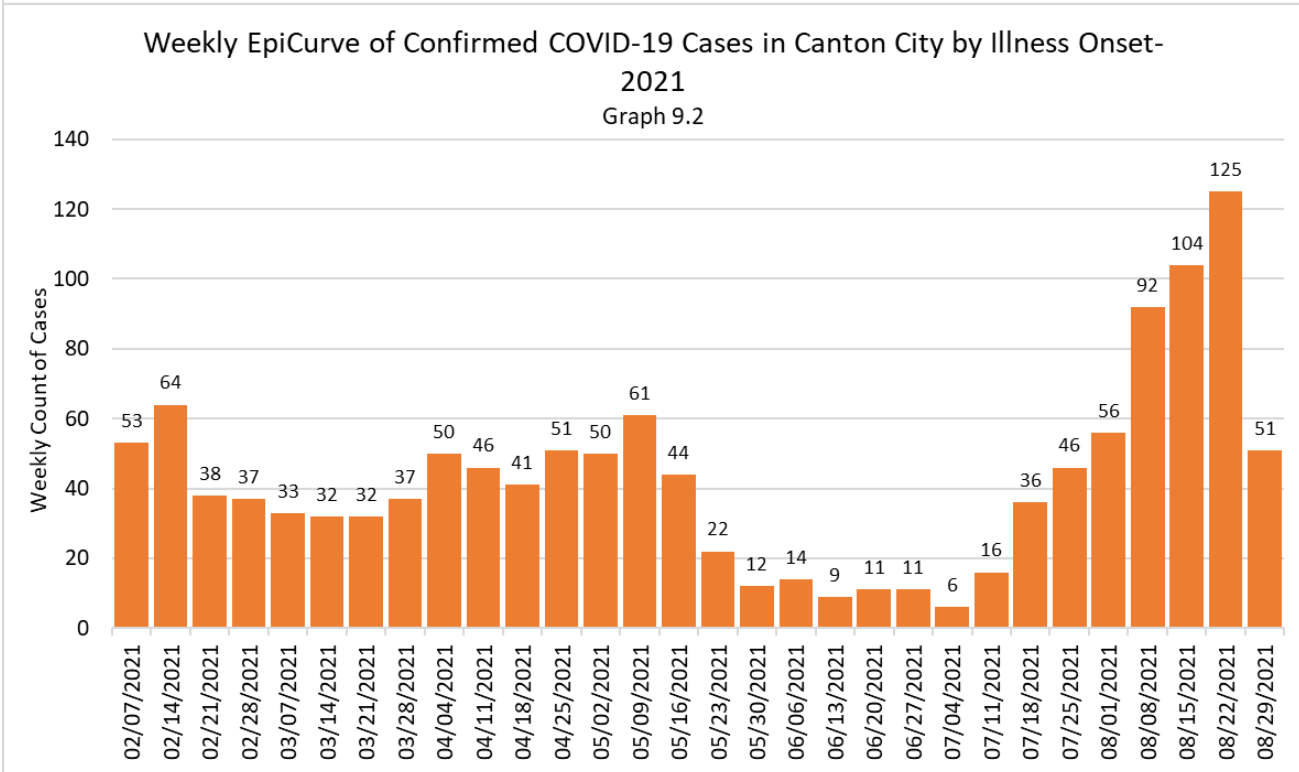

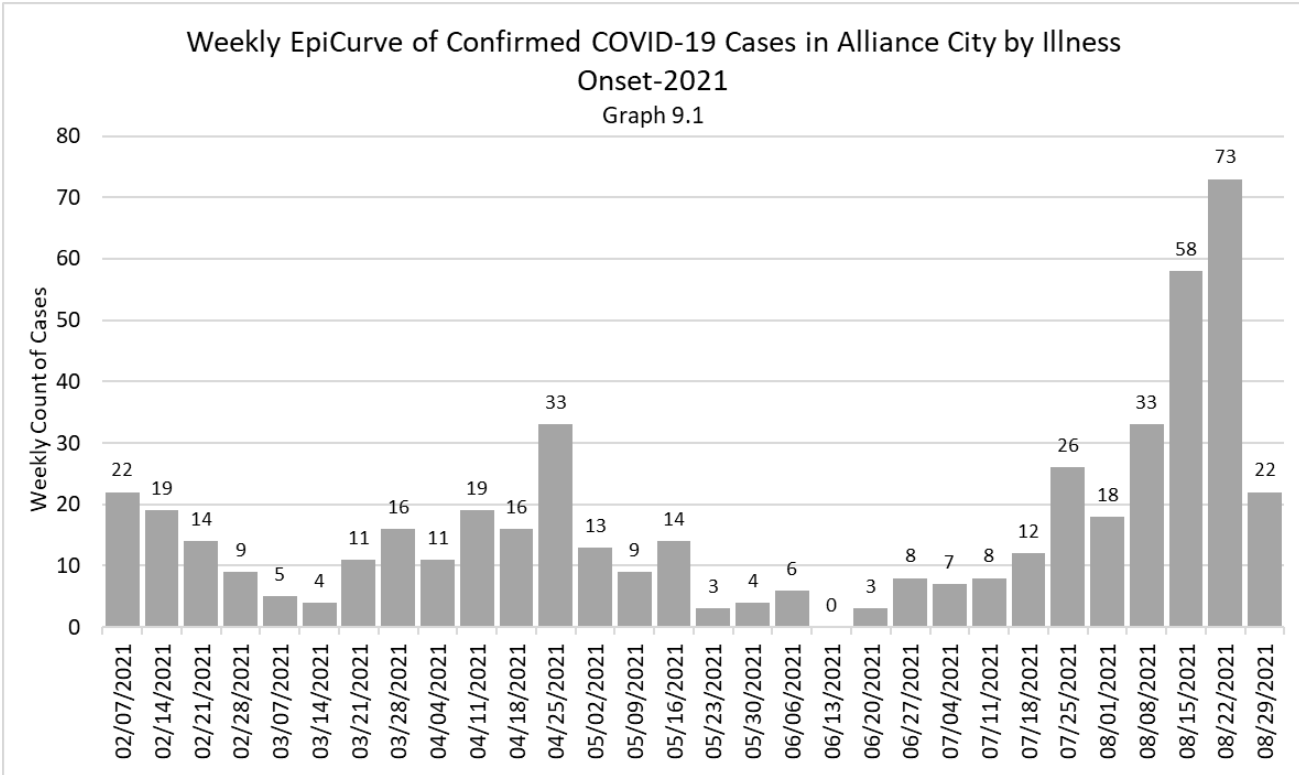

Rates of Confirmed Cases by Population  
Graph 8

Graph 8 shows the rates dependent on the 2018 population in Ohio and Stark County. This graph works to compare cases in different populations by normalizing the cases per 100,000 persons.

- Ohio’s rate of laboratory confirmed cases is 1.0x higher than those in Stark County.
- Stark County’s rate of laboratory confirmed cases who require hospitalization is 1.1x higher than Ohio’s rate.
- Stark County’s rate of death due to COVID-19 complications is 1.3x higher than Ohio’s rate.

To give health jurisdictions a clearer picture of cases within the 3 city limits and outside of those city limits, new graphs have been added. Graphs 9.1, 9.2, 9.3 are for each of the 3 city centers in Stark County. Graph 9.4 is for cases that occurred in residents outside of the 3 city limits. Please be aware that all 4 graphs have differing y-axis (vertical axis) to best show differences in case counts from week to week.

Weekly EpiCurve of Confirmed COVID-19 Cases in Massillon City by Illness Onset-2021  
Graph 9.3

Weekly EpiCurve of Confirmed COVID-19 Cases outside 3 city limits by Illness Onset-2021  
Graph 9.4

Based on stakeholder feedback, we have removed the graph on closed cases in August 2021.

We have removed the graph associated with health care workers and long-term care facilities. For more information on long-term care facilities including breakdown by facility and by resident/staff, please visit:

<https://coronavirus.ohio.gov/wps/portal/gov/covid-19/dashboards/long-term-care-facilities/cases>  
<https://coronavirus.ohio.gov/wps/portal/gov/covid-19/dashboards/long-term-care-facilities/mortality>

Background from [www.cdc.gov](http://www.cdc.gov): Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

**Confirmed**

- Meets confirmatory laboratory evidence. NOTE: Asymptomatic infections are reportable as confirmed cases.

**Probable**

- Meets presumptive laboratory evidence AND was reported on or after November 1, 2020; OR
  - o For reports received prior to November 1, 2020: meets presumptive laboratory evidence AND either clinical criteria OR epidemiologic linkage; OR
- Meets clinical criteria AND epidemiologic linkage with no confirmatory laboratory testing performed for SARS-CoV-2; OR
- Meets vital records criteria with no confirmatory laboratory evidence for SARS-CoV-2.

Counts and rates are based on date of illness onset. If onset date is unknown, the earliest known date is utilized. Any rates based on counts less than 10 are considered unreliable and caution should be exercised when interpreting. Due to testing restrictions, data may be skewed. Report compiled by Canton City Public Health.

Data is sourced from: [coronavirus.ohio.gov](http://coronavirus.ohio.gov), ODH data warehouse, and [census.gov](http://census.gov). “These data were provided by the Ohio Department of Health. The Department specifically disclaims responsibility for any analyses, interpretations or conclusions.”

Beginning March 2, 2021, ODH changed from using Ohio Disease Reporting System (ODRS) for mortality data to utilizing Electronic Death Registration System (EDRS) data. This allows only deaths which have been verified by the CDC’s National Center for Health Statistics (NCHS) to be included on the ODH website. This data is not updated daily. For the time being, Stark County will continue to utilize mortality data for ODRS with the disclaimer that data is considered preliminary and subject to change.
