#### **Canton City Health Department Recycle Center Expands Hours**

The Canton E-Waste, Tire and Household Hazardous Waste Drop Off Center announces it will be expanding its hours to better serve the community.

Beginning on May 12, 2018, the Recycle Center will be open the SECOND Saturday of each month from 9 AM to 3 PM to accommodate residents of Stark, Tuscarawas and Wayne counties not able to come in during our weekly hours.

The Center accepts all electronics, including battery operated items, metals, used batteries, paper, cardboard, plastics #1-#7, tires, both on and off the rims, and household hazardous waste. There is a limit of 12 tires per person per year. No more than 10 tires can be transported at one time. Latex paint and tube televisions are NOT accepted. There are NO fees for anything dropped off for recycling.

“The Recycle Center continues to be an important resource for the tri-county area for recycling services. “Our staff has worked hard to make this facility what it is today.” Said Mark Adams, Director of Environmental Health at Canton City Health Department. “We realize that in order to best serve our residents, being open one Saturday a month just makes sense.”

Additional information is available on the Canton City Health Department website, [www.cantonhealth.org](http://www.cantonhealth.org); Canton E-Waste, Tire & Household Hazardous Waste Drop Off Facebook page, Canton City Health Department Facebook page or by calling Canton City Health Department: 330-489-3327 or the Canton E-Waste, Tire and Household Hazardous Waste Drop Off Center: (330) 430-7869.
